PROFESSIONAL SUMMARY

Full Stack Developer with hands-on software development experience through full-stack projects and formal training from the University of North Carolina at Charlotte. Skilled in JavaScript, React, Next.js, Node.js, Express.js, Python, Flask, SQL, MongoDB, REST APIs, and software testing. Brings 15+ years of professional experience in operations, technical problem-solving, team leadership, process management, and customer-facing environments. Experienced in developing CRUD applications, responsive interfaces, API integrations, and QA/testing workflows.

TECHNICAL SKILLS

- **Languages::** JavaScript, HTML5, CSS3, SQL, JSON, Python
- **Front-End:** React, Next.js, Bootstrap, Tailwind CSS, jQuery
- **Back-End:** Node.js, Express.js, Flask, REST APIs
- **Databases:** DynamoDB, MongoDB, MySQL, PostgreSQL
- **API Development:** RESTful APIs, GraphQL, JSON
- **Testing:** Manual Testing, Test Case Creation, Bug Reporting, API Testing, Postman, Jest
- **Tools & Platforms:** Git, GitHub, VS Code, Cursor AI, Postman, npm
- **Other:** Agile Methodologies, Responsive Design

PROJECTS

QA Bug Tracker

Technologies: HTML5, CSS3, JavaScript, Git/GitHub

- Built a browser-based QA Bug Tracker to practice JavaScript fundamentals, DOM manipulation, and CRUD functionality.
- Implemented functionality to create, view, edit, and delete bug reports through an interactive user interface.
- Designed bug records around common QA concepts such as bug title, description, severity, priority, and status.

- Developed form interactions and client-side logic to manage and update bug information dynamically without requiring a backend.
- Used the project to strengthen practical JavaScript skills while modeling a real-world software defect tracking workflow.

Work Day Scheduler

HTML, CSS, JavaScript, Google Fonts

- Developed a browser-based calendar app to simplify daily event management for 9 am–5 pm workdays.
- Designed an intuitive interface for seamless user experience and added time-block color-coding for clarity.
- Integrated Google Fonts for a modern and sophisticated aesthetic.
- Sole author of the project, ensuring high-quality code and functionality.
- | <https://github.com/TruTechDad/workflow-scheduler> | <https://trutechdad.github.io/workflow-scheduler/>

Weather Wizard (Weather App)

JavaScript, HTML, CSS, OpenWeather API

- Created a lightweight weather forecast app using vanilla JavaScript.
- Integrated the OpenWeather API for real-time updates and designed a mobile-first user interface.
- | <https://github.com/TruTechDad/weather-wizard> | <https://trutechdad.github.io/weather-wizard/>

Fancy Burger Joint

Node.js, Handlebars.js, Express.js, Sequelize.js, JavaScript, Agile Methodologies

- Collaborated with a team to develop a dynamic restaurant application.
- Enabled authenticated users to book reservations by specifying time, date, number of guests, and special requests.
- Ensured unauthorized users were redirected to the login page when attempting to access restricted features.
- Created a visually appealing homepage displaying menu items and product images accessible to all users.

PROFESSIONAL EXPERIENCE

Linde — Lead Medical Route Technician

May 2011 – Present

- Lead and mentor technicians while coordinating daily operations, training, and workflow execution in a process-driven environment.
- Troubleshoot operational and equipment issues, identify root causes, and implement corrective actions while maintaining accuracy and service reliability.
- Maintain accurate inventory and operational records using handheld technology while following established procedures and regulatory requirements.
- Serve as a primary customer-facing representative, resolving issues, communicating solutions, and maintaining strong relationships with customers and internal teams..

EDUCATION

University of North Carolina at Charlotte

Full Stack Web Development Certificate

- Completed intensive full stack web development training focused on **JavaScript, React, Node.js, Express.js, Python, Flask, SQL, MongoDB, REST APIs, Git, and GitHub**.
- Collaborated in Agile development teams to **design, develop, test, and debug responsive full stack MERN applications**, applying industry-standard software development practices.
- Built responsive and dynamic web applications using **HTML5, CSS3, JavaScript, and React**, with emphasis on cross-browser compatibility, accessibility, usability, and responsive design.
- Developed server-side functionality using **Node.js and Express.js**, designing and integrating RESTful APIs to support scalable, data-driven web applications.
- Designed and integrated databases using **MongoDB and SQL**, implementing CRUD operations and data management functionality across full stack applications.
- Applied **software testing, debugging, and quality assurance practices** to identify defects, troubleshoot application issues, and improve application reliability and user experience.
- Utilized **Git and GitHub** for version control, collaborative development, code management, and project delivery.

CERTIFICATIONS & TECHNICAL TRAINING

Cybersecurity & Secure Software

- **Pre Security Certificate** — TryHackMe
- **LFD121: Developing Secure Software** — The Linux Foundation
- **Cybersecurity Foundations** — LinkedIn Learning
- **The Cybersecurity Threat Landscape** — LinkedIn Learning
- **Cybersecurity Foundations: Security Architecture** — LinkedIn Learning
- **IT Security Foundations: Core Concepts** — LinkedIn Learning
- **IT Security Foundations: Network Security** — LinkedIn Learning
- **Ethical Hacking: Introduction to Ethical Hacking** — LinkedIn Learning
- **Ethical Hacking: Footprinting and Reconnaissance** — LinkedIn Learning

AI, Software Development & Technology

- **Generative AI vs. Traditional AI** — LinkedIn Learning
- **Generative AI and Workplace Transformation** — LinkedIn Learning
- **TypeScript for Node.js Developers** — LinkedIn Learning
- **Computer Science Principles: Digital Information** — LinkedIn Learning

Professional Development

- **Scrum Fundamentals** — Professional Development
- **Data Thinking** — Professional Development
- **GenAI Thinking** — Professional Development
- **Digital Leadership** — Professional Development
